

# Connect 2 Colour

## Connecting Education, improving CHATS

**COMMUNICATION • HARMONY • ACHIEVEMENT • TEAMWORK • SELF-ESTEEM**

- Is your team in need of a re-energise or re-connection to your values and mission statement?
- Are you keen to develop a culture of Growth Mind-set and resilience for all within your school?
- Looking for ways of developing essential communication and 'soft' skills for all your pupils?

Connect 2 Colour's **bespoke** Education packages will bring together your pupils and stakeholders through its innovative and creative approach to improving connection and communication. Workshops can be staff-centred, pupil-centred, Governor-centred or follow a whole-school integrated approach. We can work with individuals, groups, classes or even whole cohorts and whole school staff teams.

**Our process will complement your SMSC curriculum by:**

- Providing an opportunity for your pupils to develop their **self-knowledge, self-esteem** and **self-confidence**
- Encourage students to accept **responsibility** for their behaviour, show **initiative**, and to understand how they can **contribute positively** to a team
- Encourage **respect** for other people and their views

We can tailor our work to support the delivery of **specialist creative-curriculum** weeks or to support you with the delivery of **specific curriculum objectives** focusing on issues such as **Bullying, British Values** and **Transition** or to work

with **vulnerable groups** to develop their CHATS and help your pupils to achieve improved outcomes. Connect 2 Colour is passionate about building children's **resilience** and enabling them to develop '**bouncebackability**'. Our workshops aim to develop your pupils understanding of **themselves as a learner** and **empower** them to develop a pro-active and robust approach to their own development – leading to **improved outcomes** and **healthier mental health**. Connect 2 Colour have worked with children from a wide-variety of backgrounds, those who have suffered bereavement or similar and pupils who find school a stressful or demotivating climate. Our approaches are based on 20 years of direct classroom experience and an understanding that all children, regardless of race, gender, affluence or ability deserve the **best possible life chances**.
